

G150

Retractable Awnings
for Decks and Patios

WHERE FASHION...

MEETS FUNCTION

G150 Series Retractable Awning

Sleek, strong and reliable best describe the NuImage G150 retractable awning. The frame is constructed with the finest materials including forged arm joint components and high grade aircraft quality extrusions finished in a durable electrostatic powder coated finish. A patented, articulating forged shoulder design provides easily adjustable pitch up to 45 degrees and incredible strength. With projection options from 6'11" to 14'6" and widths up to 40', the G150 will surely meet all your shading needs. Choose an optional front bar drop screen and even the setting sun can't spoil your comfort.

SHADING AMERICA

Extend your Living Space with the best of Technology

RELAX! IT'S TIME TO UNWIND.

Your desire to enjoy cool comfortable shade on those sunny days will be fulfilled in style with the premium quality of the NuImage G150 awning system. This beautiful, German engineered, awning provides shade without any unsightly poles to obstruct your view. When you don't need your awning, simply retract it with the turn of the hand crank or press of a button if equipped with an optional motor.

Simple Solution for those HOT Days

Traditional style and superior strength define the NuImage G150 retractable awning. Whether open or closed, the sleek design and the attractive fabric wrapped front bar and valance will add a touch of traditional elegance to your home.

SUN WHEN YOU WANT IT...
SHADE WHEN YOU NEED IT.

Shown with optional Drop Screen.

Accessorize your G150 for maximum satisfaction.

- The optional front rail drop screen adds additional shade without blocking your view. Roll down over 4' of color coordinated see through shade material for relief from the low setting sun or just for extra privacy.
- Motor controls such as wind sensors and integration to building automation systems adds convenience to help to make your awning worry free.

The new Eolis WireFree™ RTS Wind/Motion Sensor is a battery powered wind sensor that provides automatic wind protection for retractable awnings.

Patented articulating shoulders provide easy to adjust pitch control. These drop forged components will last a lifetime.

Power Up!
Relax under your new awning with a remote control or hardwired motor. Truly the easiest way to enjoy your new awning!

***Important Note:** Retractable awnings are designed for sun protection only. Warranties will not cover damage caused by adverse weather conditions such as wind, rain, snow or sleet.
